

# SMALL/LOCAL BUSINESS MIXER

FOR

Request for Proposals No. 50383 for Economic Impact  
Study and As-Needed Workforce Analysis Services  
Due by: 08/22/2024 02:00 PM PDT

## Purpose

San Francisco International Airport (Airport) seeks proposals from qualified suppliers (Proposers) to provide economic impact study and workforce analysis services. **9% of the Local Business Enterprise (LBE) participation requirement has been established for this solicitation. The Airport is hosting this mixer as part of its goal to provide access to contracting information and opportunities to small, disadvantaged, and local businesses.**

## Economic Impact Study

The primary goal of the economic impact study is to provide an estimate of the total economic impact of the Airport with updated information about its contribution to the local, regional, and state economies based on the current economic environment.

## Workforce Analysis

The workforce analysis services will be as needed. In the past, the Airport has led independent studies of its Quality Standards Program (QSP) and studies of other airport wages. The studies have demonstrated the significant impacts, particularly the wage requirements, on decreased turnover and increased performance by covered employees, thereby improving the safety and security of the flying public.
